57J94  
57L49

1. DESCRIPTION

57A73 - electricians knife, 1 blade and 1 screwdriver with locking device, shackle, rosewood handle. Under this number, the knife had brass lining and center lock, n/s shield, pins and shackle.

57J94 - Same description as above but: Steel linings and bolsters, brass center scale, n/s clevice, shield stamped TL-29. First order placed by Signal Corps on this number 3/30/42.

57L49 - Same description as above but: Steel bolsters, linings, rivets, pins, clevice and lock center scale. Handle stamped TL29. No shield.

2. SPECIFICATIONS

Specifications No. 71-569-C dated 3/8/38 which in turn superseded spec. 71-569-B of 5/25/35. Used for 57A73.

No new specifications written for 57J94.

9/17/42 - Amendment No. 1 issued but actually never fit the knife we started delivering on contract placed 9/4/42.

5/22/43 - Amendment No. 2 written with one correction still to be made. Par. E9 should read "Linings and Center to be of Steel" instead of brass.

3. OTHER MANUFACTURERS

Pal, Case, Utica, Union, Schrade, Ulster, ~~Cattaraugus~~, Robeson.

USES

By Signal Corps, Marines, Engineers, Quartermaster, Navy;  
Mostly by Signal Corps in kits with pliers, assembled by us.
